PROFESSIONAL SUMMARY

Seven years of professional experience with strong capabilities. Team player with a collaborative approach to achieving project goals. Skilled at managing tasks effectively to meet deadlines. Strong communication skills for clear and efficient interactions. Self-motivated and proficient in problem-solving and adapting to dynamic project requirements with a focus on delivering high-quality results.

EXPERIENCE

Senior Officer-IT- JANATA BANK PLC. (March 2021- present)

Bangladesh Electronic Funds Transfer Network, Real-Time Gross Settlement

Developed BEFTN Module in Spring boot and web including Oracle 19c that communicates with the Core Banking Software and Bangladesh Bank with different sessions. 930 branches of Janata Bank are using this software successfully. RTGS module is in the testing phase with the Central Bank. Deployment is in pending state and RTGS will be in service soon. Spring security is used for internal authentication and firewall, antivirus provides external security.

Software Engineer – AtomAP Limited (16 September 2019 – April 2020)

- ***Java: Japan Banking System Solution for Payment (Web & API)***

JRF Wallet was a real-time banking solution for remittance in case of deposit and withdrawal from ATM. The application provided API for both Android and iOS integration. Users could pay utility bills or did cashless shopping. They could manage balance and track history from mobile apps and the web (admin approval). Spring was for web software and Spring boot was for API.

- ***Arduino: IoT projects (Car Automation System, Gas Alarm, Weight Alarm)***

some domestic research projects based on smart car parking in garages, measurement of gas leakage and its density in a room including notification in cell (ex-call, sms) and weight measurement like gas cylinder was running out or becoming empty

Software Engineer – Pine Solutions Limited (10 March 2019 - 15 September 2019)

- ***PYTHON & LARAVEL: WeeReach***

Interactive bulk SMS and voice SMS platforms and send messages to consumers within seconds including instant reports (eg- campaign sms, bank balance confirmation, sms marketing). Fast and easy.

Software Engineer – BJIT Limited (01 October 2016 - 10 January 2019) -

- ***JAVA: Event Management Platform (Rakuten - E-commerce of Japan)***

E-commerce business department project from Japan. Merchants sold their products by giving ads through producers. Producers provided online spaces for ads to merchants. After a long process of

approval ads would go to ad department and web publishing department. Finally, it would be published. All of the ads would be under an event known as a parent campaign. JBPM is used for lifecycle management. Redis for static data. API created for campaigns, events, and ads for creating, updating, deleting and email notifications. Another batch process was used to delete excess data deletion from the database.

- **Groovy: API Development Team (Rakuten - E-commerce of Japan)**

REST API creation for different modules. Taken accessed data from multiple backend APIs with the formation of them and returned a complete response to the user/customer. The team had to create new APIs as always if API did not exist or modify existing ones if needed. Authentication happens by a third-party RAE layer ((e-commerce) App Engine). It worked like a middleware application

- **Python: ANC Silencer**

Active Noise Cancellation. It worked with Digital Signal Processing and measures with Real Time Analyzer. Using Benti and Raspberry Pi and a GUI by Tkinter library in Python works in Raspbian OS.

- **Android: Reata**

Personal Assistant for voice recognition and reading and writing in Gmail, and WhatsApp in different languages like German, French, Italian, and default English languages

PROJECTS: ACADEMIC

- **Event Management System** (Academic Project) | **Java, MySQL, Mysql-connector-java-5.1.34, Apache/2.4.10, PHP/5.5.15** | A Desktop application to create, customize, delete, and edit the event information according to their financial budgets. Some packages were to choose.
- **File Downloader** (Academic Project) | **PHP, MySQL, HTML, CSS, Apache** | Create an account, and download free software provided by the site.
- **Term result Calculator** (Academic Project) | **Java, MySQL-connector-java-5.1.2, JDBC, LSC, itextpdf-5.4.3** | Desktop based software for generating automated result. Data entry facilities were categorized by courses, semesters and other related data. Create a formatted result sheet as required in .pdf format which helps to print.
- **Hospital Management** (Academic Project) | **Oracle 10g** | Doctors, patients who maintain a schedule according to their appointments. After consultation, the schedule status would be changed in the database.

THESIS

- **Online Purchase and Sales Management System** | **Python, MySQL and Django Web Framework, Pillow, Bootstrap, jQuery, and CanvasJS. VPS(USA), Nginx, WSGI, Mozilla Let's Encrypt** | E-commerce site. Admin could give ad about their products. Users could create accounts and order products. The central office could control all branches and count the sold items. Ordering items add to cart and pay. Rating Options and a mobile integration system were included with CanvasJS. VPS from Ramnode.com was bought from the USA. Nginx was used as a web server and WSGI, Mozilla Let's Encrypt for security.

TECHNICAL SKILLS

Programming Languages: Java, Python, C++

Framework: Spring Boot, Spring Data JPA, Spring Security, Hibernate

Others: Apache Tomcat, Postman, Android
Testing Framework: Spock, Junit
Database: Oracle 11g, MySQL
Platform Used: Linux (Ubuntu), Windows
Used To: Eclipse, IntelliJ Idea, PyCharm, Code blocks, Packet Tracer, Wireshark
Collaboration tools: Git, JIRA, Confluence, Trello
Networking: Completed Cisco Training Program-KUET, CCNA(R&S)

EDUCATION

Bachelor of Science (B. Sc.) in Computer Science and Engineering

Name of the Institution: Khulna University of Engineering & Technology, Khulna, Bangladesh

CGPA: 2.65 (Out of 4.0)

Duration: February 2012 to April 2016

College: Notre Dame College | Dhaka Board | 5.00 (5.00) | **year- 2011**

School: Ideal School & college | Dhaka Board | 5.00 (5.00) | **year-2009**

INTERESTED FIELDS

Cyber Security, Information Security, Network Security, Computer Networks, Machine learning, Artificial intelligence

CERTIFICATION

- Advance Training on Oracle Database Management – IBCS-PRIMAX SOTWARE(BD) Ltd.
- Cisco Certified Network Associate Routing and Switching (Cisco ID- [CSCO12932705](#))

COURSERA (Online Courses)

- | | |
|--|--------------------------|
| ✓ Certification of Programming for Everybody | - University of Michigan |
| ✓ Certification of Python Data Structures | - University of Michigan |
| ✓ Certification of Using Python to Access Web Data | - University of Michigan |
